

Before Monday 29th June

All staff have received training, appropriate PPE has been delivered and a risk assessment has been approved by governors and FCC

Each year group will attend for 1 day only each week

Line up places have been clearly marked at the bottom of the car park

Each group has a designated handwashing station and a designated classroom which will be used by that group exclusively

Each group has a designated route through school to avoid contact with others

A one way system is in operation

Entry is only via the gate on **Albert Avenue**

ARRIVAL

Students arrive between 09:50 and 10:00 and are met by a member of staff to be informed of their line up position

Line up at designated spot

Staff ensure social distancing adhered to

Students registered and reminded of procedures

Each group and teacher will be dismissed in turn to maintain social distancing

KEEPING SAFE

The group will follow a set route to their handwashing station

Following handwashing, the group will proceed to the classroom where they will enter in the correct order according to seating plan ensuring that they maintain social distancing

Sanitizer and tissues will be available in every room to enable us to follow "catch it, bin it, kill it"
Pupils are welcome to provide their own

CHECK IN & CATCH UP

Pupils will remain in their class room where they will undertake a range of activities.

In week one, these will concentrate on wellbeing, reviewing online learning and helping to plan routines. Each group will also have some outdoor time in a designated area supervised by staff.

In weeks two and three we intend to introduce some subject teaching and prepare students for a blended learning model in September

A packed lunch provided by FCC will be eaten in class, providing an opportunity for some social time and a chat

DISMISSAL

Students will follow the same strict procedures as they did on arrival

All groups will wash their hands at their designated handwash station

Staff will then escort pupils to their bus

Rooms will be deep cleaned following use
